NOT FOR PUBLIC RELEASE

Dear Friend of Natural Healing:

Freedom of speech is *theoretically* protected under the U.S. Constitution.

But even some of today's most courageous alternative doctors dare not speak publicly about the lifesaving new medicines they've discovered. These are not the familiar "natural remedies" you read about elsewhere and...

Vested interests will do ANYTHING to prevent them from reaching YOU

FACT: The FDA has lately been threatening and ruining producers of cutting-edge natural medicines simply for printing the truth about what they actually do. That's exactly what billion-dollar drug giants want...

But they can't silence all 107,000 of us!

We're Health Sciences Institute (HSI)—an international network of over 107,000 doctors, researchers and health-conscious consumers like you who support alternative medicine. In this privately circulated report, we're breaking the silence about the greatest new medicines of our time...

And we've just granted you a Guest Membership..

So that you and your loved ones can freely share in these miracles right now...

(Continued on page 2 inside...)

IN THIS SPECIAL ANNUAL AWARDS ISSUE:

Alternative doctors *dare not publish* their shocking new findings about how to...

- **Knock out killer flu in 8 hours** with a secret antidote developed for the military ..... page 18
- **Heart failure reversed in 2 weeks**...cheap as aspirin ..... page 15
- **Destroy "end stage" cancers** with a substance that even healed Chernobyl victims ..... page 10
- **End hypertension for keeps** with the clinically proven "tuna pill" ..... page 16
- **Revive damaged lungs with DNA drops** that boost breathing capacity 90% ..... page 20
- **Beat any prostate problem,** benign or malignant, with the incredible "perfect cure" ..... page 31
- **Boost bone density 27%** by taking *a lot less* calcium ..... page 28
- **Reverse diabetic damage** with this rare new vitamin discovery ..... page 36

But you're holding the lifesaving *proof* they can't print!

Dear Friend of Alternative Medicine:

Just recently, three lifesaving natural medicines were banned by the FDA...

And the brilliant scientists who make them were financially ruined. WHY?

Did any of these natural substances have *any* unsafe side-effects? NO.

So why did authorities snatch them away from patients whose lives depended on them?

Because the medicines *worked too well*...and the makers *printed the truth!*

Think the First Amendment protects free speech? *Not if you make alternative medicines!*

The message is clear—if your natural cure works, you'd better not say what it does.

These bans have sent a chill throughout the alternative health community. Even doctors we greatly admire are self-censoring their own publications, for fear their clinics and dispensaries may be shut down...

But they can't silence all 107,000 of us!

We're Health Sciences Institute (HSI)—alternative medicine's first and foremost global information network. We're 107,000 enlightened doctors, researchers and health-conscious people like *you*, and...

Because we *don't* make or sell any medicines, VESTED INTERESTS CAN'T SHUT US UP

This also means we're impartial and trusted throughout the natural healing community...

So today's most gifted researchers are constantly telling *us* what they can't tell *you*.

WANT PROOF? Just keep turning the pages of this special awards issue. You're going to see what's *really* new and exciting, that could heal your loved ones' worst health nightmares right now. In nearly all cases...

You haven't seen these award-winning, lifesaving "underground cures" mentioned *anywhere* else...

But you *will* see them hailed years from now, as other publications gradually pick up on them. (See pages 12 and 15 for examples of how this has already happened.)

Normally, these "forbidden" breakthroughs are seen by HSI Members only—in our privately circulated Members Alerts and daily e-mail updates.

But because you're such a strong supporter of alternative medicine, we've granted you a temporary Guest Membership. So that you and your loved ones can start sharing in these miracles *right now*.

Please use this privilege immediately. The threat to free speech and innovation in natural healing is at our doorsteps *now*. You are holding the answer. Just page through the life-giving *truth* about the new...

- **Silkworm secret that strips**

away artery plaque, confirmed by ultrasound scans...

- **Mouthwash that reversed periodontal *bone loss,*** now being studied by dental schools...
- **"Lemonade" that irons out facial wrinkles in 2 weeks,** and even rejuvenates elbows and heels...
- **Ultimate anti-fatigue compound** clinically proven to give *52% more energy...*

Then please be our guest and accept the most generous FREE GIFT OFFER in HSI history. Simply mail the Gift Certificate inside the back cover today, register as a permanent Member, and we'll rush you...

HSI's brand-new, uncensored, *12-volume* library of TODAY'S GREATEST ALTERNATIVE MEDICINES...FREE!

It contains full details about all the breakthroughs honored in this special awards issue, plus many more. How they work. Recommended dosages. Where to get them. And it's just the first of many life-giving benefits you'll receive as a Member. (Ever heard of an organization that will research a cure just for you, personally? Nothing would please us more. See page 24.)

The Greatest New Medicines of Our Time

WHY YOU'VE NEVER HEARD OF THEM: HSI sells no medicines, so we report on a much wider range of new treatments. Because we're trusted worldwide, we also receive the earliest word. Most importantly, doctors today *can't* publish all the lifesaving facts about their own natural therapies. For all these reasons, we urge you to brief your spouse, parents, children and friends about these true new health miracles *right now.*

Forbidden PAIN CURE

proves so powerful, FDA rescinds ban

Banned "blanket cure" blocks *all* manner of pain signals. Halts agony of ruptured disks, degenerated knees, diabetic neuropathy—even pain from *amputated limbs.*

When the FDA eats crow and lifts its own ban on a natural cure, you'd better believe there's a mountain of proof to force the issue. Happily, this has just happened for an amazing *pain-blocking blanket*—a breakthrough that HSI first reported to Members nearly 10 years ago.

Well, it's about time! Even *before* it was banned, this discovery had already been tested in clinical trials. It had earned a long list of endorsements from MDs and insurance companies. And overwhelming numbers of HSI Members were reporting near-miraculous results. They confirmed it wiped out "incurable" pain from...

- **Degenerated knees...**
- **Muscle sprains...**
- **Stiff necks...**
- **Aging hips...**
- **Bad backs...**
- **Even menstrual cramps...**

And one of our own headquarters staff swore it was the only relief she ever found from constant lower back pain caused by a *ruptured disk.* We were outraged when the FDA prohibited this product for lack of "sufficient evidence to demonstrate safety and effectiveness." It took 6 long years to get the ban lifted, but there was simply no denying that this impossible-sounding breakthrough really, truly works.

Latest clinical studies are even more shocking. They show the blanket may revolutionize treatment of fibromyalgia. Patients confirm it reverses the terrible nerve pain brought on by strokes...and even the icy agony of diabetic neuropathy. The gold-medal-winning *British Columbia Track Team* says it's fantastic for pain from athletic injuries, including sore muscles, tendonitis and pulled hamstrings. It relaxes muscle spasms and stimulates blood circulation.

How it works. Know how your joints and muscles hurt when the weather changes? It's not your imagination. This is actually brought on by shifts in the earth's *magnetic fields.* These magnetic effects are

well known by hospital technicians, who use something called a "Faraday cage" to protect sensitive MRI machines. Acting on this knowledge, brilliant German scientist Frieder Kempe invented a *metallic fabric* that could shield human limbs in the very same way. He was hoping simply to relieve weather-related pain, but was stunned by how quickly and powerfully it triggers your body's *entire* pain-relieving response.

How to use it. The fabric is now available in the form of blankets, jackets, boots, elbow and knee wraps, back belts and other

convenient configurations. We'll give you full details on how to obtain and employ this still-hushed-up breakthrough in your FREE report #1, ***Pain-Free in Seconds.*** Do RSVP for yours today, because this is where you'll also learn about:

- **Just 2 drops did it!** For temporary relief of pain when nothing else works, this discovery of HSI Research Panelist Jon Baron relieves it *on contact.*
- **Spray away migraines *instantly*.** HSI Research Panelist Dr. Linda Page recently gave us early word about this powerful natural anti-inflammatory that you simply spray under your tongue. An August 2001 study shows it relieves an amazing 88% of migraine victims—*in just 6 1/2 minutes.*
- **Chronic leg cramps? Walk pain-free!** One of HSI's very first e-mail alerts directed Members to the Tibetan herbal formula called Padma—*4 years before* other alternative newsletters picked up on it. If a loved one has intermittent claudication or peripheral artery disease, don't miss our latest update. Members confirm a *new* formulation is helping them sleep the night and walk pain-free. PLEASE NOTE: These are *very* serious conditions. Don't act before consulting your FREE report.

Then you'll learn some even more exciting news about *cancer* treatment...

THE HSI RECORD

First to warn about Vioxx!

On the day Vioxx was recalled, millions panicked, but HSI Members were happily playing golf—pain-free without any drugs. An HSI e-mail alert had already warned them about the Vioxx heart-attack danger back in October of 2001, *3 years before the recall.* We e-mailed further alerts in January, February and March of 2002, the instant that any important new scientific evidence leaked out.

Just as importantly, HSI was also sending Members the latest research on *natural* pain-relievers, including those mentioned on these pages. Within 24 hours of the Vioxx recall, we rushed Members an e-alert recapping their alternatives, so no one would have the slightest cause for concern. *Wouldn't your own loved ones be grateful for this lifesaving service? CUT CATARACT RISK 64%

for less than a nickel a day

Are you taking the right vision vitamins? Every alternative doctor has a favorite formula, and they can be unbelievably expensive, but sometimes the simplest answers are best. We recently discovered studies that suggest you can cut your cataract risk by a nearly two-thirds just by taking Vitamin C. The recommended dose will cost you only about 5 cents a day. *Wouldn't your loved ones be grateful for this powerful new information?*

KILLS SUPER-CANCERS LIKE KRYPTONITE

Seaweed secret even destroys *end-stage* cancers and heals *Chernobyl* radiation victims

Why do the people of Okinawa hardly ever get any kind of cancer? With the world's highest percentage of 100-year-olds, this tiny Japanese isle has mystified health researchers for years...

But one of Japan's greatest cancer researchers just uncovered their secret! And because the brilliant *Dr. Kohei Makise* also serves on the HSI Research Panel, our Members learned about it first.

The long-sought secret. As it turns out, Okinawans are very fond of a seaweed delicacy called *kombu*. In fact, they eat far more of it than anyone else in the world! And, after many years of research, scientists have finally isolated the ingredient that makes it so healthy—a long-chain carbohydrate called *fucoidan*.

How it works. Like many natural cancer-fighters, fucoidan is a potent immune-booster. But new research shows it goes far beyond other natural extracts you may have heard about. In the latest lab studies, it actually made cancer cells *self-destruct in a matter of hours*.

It even appears to be effective against fast-spreading *lung cancer* cells, which are notorious for resisting conventional therapies. Dr. Makise reports he's having impressive success even with "terminal" patients. As a complementary treatment, he says it easily beats chemotherapy alone. Plus it...

Makes other immune-boosters *even more* effective. When Dr. Makise combined it with a powerful natural extract called AHCC (described below), the results were near-miraculous. Best of all, it...

Couldn't be safer! Bear in mind that the seaweed is a food staple for the ultra-healthy Okinawans. And its lifesaving powers go far beyond the prevention and treatment of cancer. Russian researchers say it's even been successfully used to treat *radiation sickness* among victims of the terrible Chernobyl meltdown.

This is late-breaking news and it's urgent. Research is still in the early stages, but the life-saving potential is enormous. Years from now, you may hear about fucoidan from other health sources, but at HSI we think you deserve to know what's going on *in real time!* After all, when you're battling cancer, every day counts. So don't you owe it to your loved ones to RSVP and get the details? We'll share Dr. Makise's complete treatment protocol in your FREE report #2, ***CANCER'S KRYPTONITE: Amazing New Cancer Killers***. This is where you'll also get the full story behind HSI's other top cancer discoveries, including:

THE HSI RECORD

First to reveal the cancer-beating MIRACLE OF AHCC

Recently, a number of newsletters have been recommending AHCC—an advanced hybrid mushroom extract shown to prevent the recurrence of prostate cancer, breast cancer, liver cancer, ovarian cancer and more. We heartily concur, but *HSI broke the AHCC story over 5 years ago*. For HSI Member Jacqueline, battling breast cancer, results came just in the nick of time:

> "My results were dramatic. So quickly, I was shocked!"
>
> —*HSI Member Jacqueline T.*

What others still aren't telling you. In the past 5 years, we've rushed Members a dozen more updates on AHCC, sharing exciting *new* findings as soon as they became available. Full details in your FREE reports.

HSI alerted natural scientists and our 107,000 Members! 10,000 times stronger than chemotherapy, the rainforest discovery *Graviola* might have been buried forever, if not for HSI. 6 years later, Lee's still going strong...

And his leukemia-beating secret is still "safe as mother's milk!"

HSI Member Lee Bowden has become a beacon of hope for every cancer victim who's ever been told to "get your affairs in order." As Lee recalls...

"I was the worst case they had seen at the Mayo clinic in 20 years..."

His leukemia had defied chemotherapy and every other conventional treatment. *"I even received my last rites from a priest,"* he remembers. *"Then a miracle really did happen..."*

"Take it from me, the 'miracle treatments' from HSI are for real!"

—Lee Bowden, Vero Beach, Florida

Lee received an HSI report about *lactoferrin*—a truly miraculous natural compound found in mother's milk, which protects nursing newborns from disease and "switches on" their immune systems. This was among the first natural cancer-fighters HSI ever reported on, scooping other alternative health experts by many years. Members like Lee are living testimony that it really does work. PLEASE NOTE: Although the market is full of imitators, high-grade lactoferrin is still hard to find. Stop breast cancer in its tracks WITH GRAPEFRUIT?!

Editors' Choice AWARD

Mainstream medics once called it "nonsense," but now it's acclaimed as a *lifesaver!*

Several years ago, HSI reported on this story—long before the mainstream caught on—about an astonishing *grapefruit pulp extract* that appeared to make cancer cells unable to spread. Member feedback was exciting, but research was still in its early stages.

***No longer!* Brand-new research continues to support** that this compound really does stop cancer cells from "metastacizing." Yes, it appears to actually halt the deadly process by which tumors branch out and kill you. Astonishingly, when lab subjects with breast cancer were treated with MCP, none of them developed cancer elsewhere.

Superb results for breast, colon and prostate cancers. In fact, dozens of studies now validate HSI's decision to inform its Members of this powerful alternative years ago—before most doctors had even heard of it. This impressive body of evidence shows that MCP's effectiveness is unsurpassed by many prescription cancer drugs, *and without the terrible side-effects.*

If you're fighting cancer. We urge you to show your doctor the details in your FREE report #2, *CANCER'S KRYPTONITE: Amazing New Cancer Killers.* Ask about adding MCP to your plan. Its safety is well established. It may help your body better respond to the treatments you're already taking. And it just may give you the boost you need to lick this killer for good.

URGENT ALERT!

Does this cholesterol "cure" REALLY WORK?

What alternative doctors *aren't* telling you about today's hottest natural heart pill

The best-selling "new" natural cholesterol-buster *Policosanol* was actually introduced to HSI Members nearly 5 years ago, well before it was championed by some famed doctors we admire.

As first reported in our November 2001 HSI Members Alert, this botanical extract has been shown in clinical studies to lower LDL ("bad") cholesterol as well or better than leading statin drugs. Plus, it raises HDL ("good") cholesterol as much as 29.3%.

We're delighted that others are sharing the news now. But before you rush out and try it, we wanted to share what *our Members* have learned about...

Why Policosanol "doesn't work!"

Since our Members have been using Policosanol for up to 5 years, they've learned a lot about *how* to use it correctly. Recently, they've been comparing notes on the online HSI Member's Forum. Those getting the best results point out that the original studies all used a type of Policosanol extracted from *sugar cane*. Yet the market is now deluged with brands extracted from beeswax, rice brain and other non-sugar-cane sources. And some published studies now suggest that the beeswax versions

Sensational new *silkworm secret* STRIPS AWAY ARTERY PLAQUE

Ultrasounds confirm it, forcing surgeons to cancel bypasses!

Ever wonder how fragile new moths break out of their tough cocoons? So did the brilliant German alternative doctor, Hans Neiper, M.D. He discovered that silkworm moths produce an enzyme called *serrapeptase* with a fantastic property—it dissolves dead tissue, yet leaves living cells totally unharmed.

Dr. Neiper then asked himself what might happen if this silkworm secret were put to work on diseased human arteries. After all, hardened arteries are caked with a type of "dead tissue" called plaque. He started giving it to patients with arteriosclerosis and...

Results! Patients scheduled for bypass surgery were suddenly able to cancel it! Ultrasound scans of their arteries confirmed that deadly plaque had indeed been stripped away.

How it works. Serrepaptase appears to dissolve the organic "glue" that binds artery plaques together. It also seems to reduce the inflammation that has lately been strongly linked to artery damage.

Latest findings. Alternative health researchers we know of in Japan, India and Italy have been testing what else serrapeptase can do and the applications seem almost endless. It's being used to ease a huge number of circulatory problems—from post-operative swelling to varicose veins.

Play it safe, however. Because it may interact with anticoagulant and other drugs, this cutting-edge enzyme therapy should be used responsibly. See the details in your FREE report #3, where you'll also learn exactly how Dr. Neiper has used it, and the nutrients that may make it even more effective.

Why trade high blood pressure for A HEART ATTACK?

NEW STUDY: Top blood-pressure drug therapy nearly doubles heart-attack risk. But HSI's side-effect-free *"tuna pill"* is proven in 3 clinical trials.

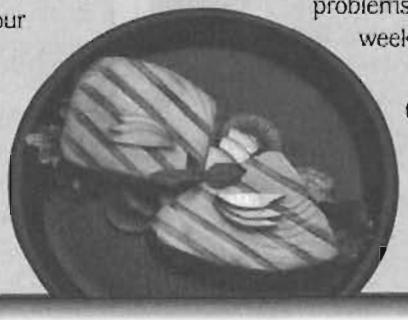
The bad news. As a result of new guidelines, over 45 million Americans will now be urged to take drugs in order to reverse high blood pressure or "pre-hypertension." Individuals at risk must now get their numbers *below* 120/80, say the National Institutes of Health. Doctors admit this may often require taking not one, but two different blood-pressure drugs.

The worse news. Even the American Medical Association now admits that combining two of today's most popular blood-pressure drugs may raise heart-attack risk as much as 85%. (This hushed-up study was published in the December, 2004, *Journal of the American Medical Association*. Details in your FREE reports.)

The *wonderful* news. An exciting new natural therapy just uncovered by HSI's international research network is now proven to normalize blood pressure with amazing safety, using nothing more dangerous than...

TUNA EXTRACT?!

Yes, believe it or not. The Asian bonito *(Sarda orientalis)* is a member of the tuna fish family, traditionally consumed in Asian countries. Up until now, researchers assumed the healthiest compounds found in these fish were the *oils*—but now they're onto even more miraculous compounds called *peptides*. In 3 different clinical trials, people with high blood pressure who took *bonito peptides* together with another common nutrient licked their problems in a matter of weeks!



Works faster than diet and exercise. Look, we urge anyone with hypertension to decrease stress, lose excess weight and get more exercise. But you won't see results for months and even then they may not do enough. The "tuna treatment" kicks in quickly, it can complement whatever else you may be trying, and it's...

Amazingly safe. More research is in progress, but so far the record is astonishingly good. Not only were there absolutely no adverse side effects—the extract also avoided a huge danger inherent in drugs. *It never reduced blood pressure below the safety level.* It's almost as if the peptides "know" when to stop.

How it works. Like ACE blockers, the peptides appear to lower levels of a body chemical that constricts your blood vessels. Unlike the drugs, however, they do so *without* the dangerous "rebound" effect that makes blood pressure rocket when you miss a dose.

Very, very hard to find. Because it's so new, the compound is almost impossible to locate, but our network has secured a source for Members. We'll send you full details about this breakthrough in your FREE report #3. So do return your Gift Certificate today.

URGENT ALERT!

Panicked Feds Predict KILLER FLU

Could rival 1918 pandemic that killed 40 million, says Center for Disease Control. "Human population has no immunity." Too late for vaccines!

But a top-secret germ antidote developed by the Russian military could save your loved ones' lives...

The AP wire flashed, *"World on Brink of Worldwide Epidemic!"* The long-overdue killer flu has finally arrived. It's spreading like wildfire among Asian poultry and has leaped the "species barrier" to humans. And appallingly...

72% of the victims are dying! Because this is *not* your normal influenza. It's the dreaded "H1-type" flu virus that's struck just three times in the last 100 years. The 1918 outbreak alone killed up to 40 million people—more deaths in one year than the medieval black death produced in four. The Asian Flu of 1957 and Hong Kong Flu of 1968 felled thousands more, and this one looks even worse.

FEDS: This could be the deadliest yet. The U.S. Center for Disease Control (CDC) in Washington D.C. is not known for panicky talk. When they said, "this is a very high threat," it's time to worry. The CDC director flatly declares, *"each time we see a new H1 antigen emerge, we experience a pandemic."*

But the HSI network had been preparing against this *for years...*

Our international research network has made natural germ-fighters a #1 priority since our founding. We've discovered dozens in the past 13 years. Your FREE reports will include full details about the best—plus a shocking *new* breakthrough we've just uncovered that could dwarf them all.

Developed in secret by Russian military to treat *anthrax!*

In 2002, *National Geographic* published an article describing how a Russian military lab accidentally released weapons-grade anthrax into the wind, infecting villages in a 60-mile radius.

What they *didn't* report is what the Russians did in response. In fact, the Russian brass ordered top minds at the State Scientific Center Research Institute to develop a "universal antidote" for biological warfare agents. They researched over 600 different compounds—and found one with astonishing power and safety.

How it works. It's not a drug, but a *probiotic* capsule packed with "friendly" bacteria called *Lactobacillus bulgaricus*. Couldn't be safer, because it's a special strain of healthful microbes found in yogurt! Yet it makes your immune system attack "unfriendly" microbes with incredible speed. In documented case histories, it...

Knocked out flu *in 8 hours...*

...and easily overcame the usually incurable Hepatitis C virus. All this was *before* the project got transferred to Bulgaria, where famed germ biologists there found out how to supercharge the friendly bacteria.

The modified product is said to be 10 to 30 times more powerful. More than 50,000 doses of this remarkably safe

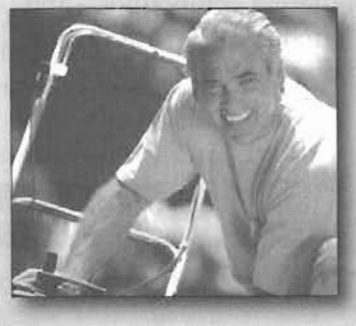
DNA drops revive damaged lungs

Lung capacity soars up to 90%!

When America's most beloved talk-show host died from emphysema, the nation suddenly realized how deadly these conditions can be. In fact, Chronic Obstructive Pulmonary Disease (COPD) is America's 4th biggest killer. Only heart disease, stroke and cancer murder more of our loved ones—and COPD is even expected to overtake cancer in this generation...

And it's not just smokers who are dying! A new epidemic of respiratory trauma brought on by pollution in the workplace and toxic molds in the home is afflicting even those of us with the best health habits.

What on earth can we do? Mainstream medicine offers little beyond



oxygen tanks and lung transplants. So the HSI research network has been blazing with excitement about a natural therapy that's so inexpensive, it...

Costs as little as a dollar a day

How it works. Developed by two brilliant DNA researchers, this ingenious new discovery takes a totally unexpected path to outsmart lung damage. It helps your remaining *healthy* lung tissue become much more efficient—by stimulating the hair-like fibers (called "cilia") that line your lungs.

These little fibers are the cleaning squad of your respiratory system, and when they're up to speed, they clear out the *excess mucous* that otherwise strangles COPD sufferers. The technical term is mucociliary clearance, but in plain English, *your lungs become un-clogged.*

7 years of fantastic results. Consider the case history of 23-year-old twin brothers, both afflicted with deadly cystic fibrosis. Each had been hospitalized repeatedly—until they started using an early version of these DNA drops. In the 7 years since, neither has been hospitalized. *Their vital lung capacity has increased up to 90%!* The only setback occurred when one of the brothers temporarily stopped taking the drops—and as soon as he started again, he immediately improved.

Chronic sinusitis cleared. A 48-year-old woman with chronic sinusitis, coughing and head congestion is amazed how fast her sinuses and chest cleared.

Easy to use and phenomenally powerful. Patients only place a single drop of this DNA therapy under their tongues to start triggering the healing response. They're stable at room temperature, so you can carry them in your pocket or purse for instant relief. It's not a cure, but it could be our best hope yet against the nation's #4 killer. Full details about how they work and where to obtain them in your FREE report #4, ***CLOGGED LUNGS CLEARED: Stopping America's 4th Biggest Killer.***

MORE ENERGY?

Imagine enjoying this power surge *every day,* from now on! Clinical studies indicate new breakthrough works for:

- **Stressed-out workers...**
- **Menopause sufferers...**
- **Chemotherapy patients...**
- **Chronic fatigue victims...**
- **And nearly everyone else!**

When was the last time *you* crawled out of bed feeling like a train wreck? Join the club. Legions of stressed-out Americans are waking up tired, gulping coffee, tossing and turning all night with insomnia...

Is there *any* way out of this black hole? Suddenly, wonderfully, now there is. One of today's most acclaimed biotech researchers, Dr. Floyd Taub, MD, has just completed clinical studies on an all-natural treatment that's being called *"the most potent anti-fatigue compound ever discovered."*

Code-named COBAT, this is no experimental wanna-be. The buttoned-up research has even been blessed by an independent government panel. It dramatically banishes tiredness and brain fog, without the

Iron out wrinkles in 2 weeks WITH LEMONADE?!

Lately at HSI gatherings, we've met some of the youngest 70-, 80- and 90-year-olds you can imagine. And they're crediting a compound with the unlikely-sounding name of *hyaluronic acid (HA).*

Maybe you've heard of this stuff if you've got a bad knee. HA is a jelly-like substance that naturally cushions your cartilage—and for years, doctors have been injecting it into failing joints. But HA is also a vital component in your *skin.* It hydrates your cells, helps collagen form and keeps skin smooth and youthful.

By age 40, our natural production of HA lags, resulting in wrinkles, crow's feet, hound jowls and other indignities. For decades, researchers sought a therapy for replacing this "serum of youth"—with no luck.

The problem. HA molecules are so large, they can't be absorbed by your intestines. So there was no way to get them it into your bloodstream, except through painful, expensive injections. Not until...

The new breakthrough. Researchers in Japan finally found a way to "shrink" HA molecules so they can permeate your digestive system and travel to your skin cells. It's a *very* nifty technique called "enzyme cleaving" that literally slices the long-chain molecules without changing their function.

RESULT: Youth in a lemon-flavored drink. Lab animals who drink it heal their wounds 5 *days faster.* More importantly, studies on human women show even more amazing improvements...

Younger-looking faces, hands, elbows, knees and even *heels.* 4 out of 5 women found their skin smoother and firmer nearly everywhere. As a bonus, nearly as many got relief from stiff joints.

How to use it. Mix the powder with cold water and drink. Tastes like generously sweetened lemonade.

Any catches? The lemon-flavored brand that our Members like most isn't cheap (beauty rarely is), but we also found an effective generic at less than a third the price. Full details in your FREE report #6, ***Today's Top Medicines for Women.*** Mail your Gift Certificate today!

What's *your* missing cure? LET US FIND IT FOR YOU!

Somewhere in science, there's a better new medicine waiting for you right now. Let HSI's network of 107,000 cure-finders locate your needle in the haystack!

(SUMMER, 2009) **No matter what condition afflicts you,** we can practically guarantee that you're not getting the best medicine science has to offer. *Maybe you were once, but not anymore...*

WHY? *Because the research never stops...*

FACT: In the last few years alone, natural researchers have made thousands of new breakthroughs you've never heard about. They're happening so fast, no single expert can master the details about them all. Not you, not your doctor, not even a brilliant *alternative* doctor.

Natural healing has become too vast a frontier for *any* one pioneer to stake out...

And that's why *Health Sciences Institute* (HSI) was founded!

HSI started when a handful of top health researchers banded together—to flash first word of their *greatest* breakthroughs directly to you, the moment they happen.

The result was an instant success. Since then, HSI has snowballed into an awesome network of global proportions. Linking over 107,000 doctors, researchers and health-conscious individuals, HSI is the ultimate resource for anyone seeking a better, newer solution. If this network can't find it for you, it doesn't exist...

But time and again, you'll discover it does! Just listen to what HSI Members are saying...

HSI breakthroughs work FASTER THAN STATIN DRUGS!

"I'm about half way through a two year subscription to your excellent Member Alert newsletters and want to say 'Thanks.' After a bypass 3 1/2 years ago...I have been able to keep my [cholesterol and homocysteine] levels within recommended limits using [the breakthroughs that HSI] reported on. A particular plus was that the levels were achieved faster and with superior results than those obtained with prescribed pharmaceutical drugs—and no side effects!" *—HSI Member M. R. Cure periodontal disease WITH MOUTHWASH?

How an "ordinary" HSI Member like *you* made a medical breakthrough...

With so many brilliant minds joining the cause of alternative healing, you never know where the next breakthrough's going to happen. But the HSI network is *everywhere*—from high-tech labs to rainforest villages, to the homes of health-conscious people like you.

It was the "ordinary" father of a son with gum disease who came up with this shockingly powerful treatment. HSI Member Joe Lesky had treated himself with natural herbs for years. He carefully researched extracts and oils—and mixed up an herbal mouthwash. He was hoping it might help his son avoid gum surgery...

That's putting it mildly! Not only did his son's gums become pink and healthy in just a few months. Bone loss was even reversed! We told our Members how to use it and their feedback has been tremendous too. In fact, Joe Lesky's mouthwash discovery is proving so amazingly effective...

Famous dental schools are studying it!

If you've got loved ones with gum problems, shouldn't they try it too? Full details about how to get it and use it are in our FREE healing library, *Today's Greatest Alternative Medicines.* RSVP today!

that's usually associated with my chemotherapy treatments. If it weren't for the Health Sciences Institute, I would never have learned about [this breast cancer miracle] and I never would have felt so much better after taking it."

—HSI Member Carol L., Grand Junction, CO

HSI hands even doctors the breakthroughs *first!*

"It is truly refreshing to read a publication on the topic of alternative medicine that is scientifically based and reviewed by professionals. It is through your hard work and diligent attention to detail that alternative medicine has hope for the future."

—Robert A. Sinnott, Ph.D., Biotechnology Specialist

"As a naturopathic physician many years in the field, I'm enjoying your articles very much. Excellent research!"

—Judy Marie, ND

HSI is medicine's hope for the future!

"I like to think I'm on the cutting edge, but I constantly see things in HSI that I haven't read elsewhere. For every breakthrough I've shared, I've learned about several more."

—Michael Rosenbaum, MD, Vice-President of OHM Orthomolecular Health Medicine

BOOST BONE DENSITY 27%

by taking a lot less calcium!

Cutting-Edge AWARD

What your doctor never told you about taking calcium. It's not how much you take that matters most, but where it *winds up*. That's one reason why drinking milk has never been shown to protect against fractures.

The problem. Calcium in your bloodstream doesn't necessarily get absorbed by your bones. Unless you solve this problem, you can suffer from *calcium overload*. It can migrate to your arteries in the form of plaque, collect in your kidneys as stones, or simply get flushed out when you urinate.

The new breakthrough. Chinese researchers combined a highly bio-available form of calcium with 21 different amino acids, a couple of minerals—and 3 little-known Asian herbs shown to cut bone loss and boost bone formation. The first studies are out and they're staggering.

Bone density increased by an astonishing 27%! That's the best result from any therapy we've ever heard of, drug or natural. Plus, bone remodeling—the crucial process by which fragile old bone cells are replaced by healthy new ones—soared by an incredible 100%.

No mega doses required. The actual amount of calcium in each daily dose of this Chinese wonder is just 125 mg. That's about a tenth of what you're probably gulping down now. Scientists say this is because the calcium is going where it counts, instead of where it can do you mischief.

What to do. If early research bears up, this breakthrough beats more dangerous therapies by a country mile. No adverse side-effects have been reported. *If I were fighting osteoporosis, I'd start it tomorrow.* Full details on where to get it and how to use it in your FREE report #6, ***Today's Top Medicines For Women.***

curse of insomnia. Works wonders for the seriously ill—and when ordinary stress-sufferers use it, WOW!

The facts at a glance. I'd need pages to run down all the results, so let me just list a few.

1. Greatly energized 90% of all patients with cancer, chronic fatigue, and Hepatitis C.

2. No matter *what* triggered the fatigue, COBAT gave a 52% average energy boost.

3. Unlike herbal stimulants and caffeine that just mask fatigue, COBAT kept everyone going like the proverbial energizer bunny. Even after 22 weeks of use, energy levels kept getting better!

How it works. Dr. Taub's breakthrough came when he realized that extended stress throws the human immune system out of whack. Your body responds by pumping out too many immune cells called cytokines. Then they attack *you*, much like "friendly fire" can mow down an army platoon. COBAT fixes this by fine-tuning your immune cell output. It's a very delicate job that couldn't possibly be accomplished with drugs, but COBAT actually works on the molecular level.

Low cost. While fatigue-fighting drugs like Procrit can cost nearly $2,000 for a 30-day supply, COBAT is available without prescription for under $2 a day. All this makes it a slam-dunk for our EDITORS' CHOICE AWARD. We highly recommend it for loved ones suffering any kind of fatigue, and we've spoken with many quite healthy folks who simply enjoy the extra energy. Just consider...

"PERFECT PROSTATE CURE"

from Vietnam's greatest living doctor...

- Biopsies confirm it erases cases of *prostate cancer...*
- And succeeds for 9 out of 10 *benign* prostate sufferers too

Dr. Kha Hoang was the Medical Doctor for the Vietnamese royal family. So revered was he that he survived the revolution and all that followed. He, his children and grandchildren are practicing medicine in Vietnam today...

And ironically, their brilliant research may soon erase an *American* plague!

I'm speaking about prostate disease—both prostate cancer *and* benign prostate swelling.

It's so prevalent among older American men that doctors here regard it as nearly inevitable. But for a number of years now, Dr. Hoang has been curing both kinds quite reliably, using a traditional Vietnamese herb that's all but unheard-of here in the West.

Now I know what you're thinking. *"Vietnam? Herbs? Curing cancer?"* Yes, the story does sound pretty wild. And that's doubtless why Dr. Hoang's breakthrough has received nearly zero attention over here.

But all this changed very recently, when Ken Malik, the co-founder and Executive Director of the Prostate Awareness Foundation was diagnosed with prostate cancer he literally searched the world for a cure. He found out about Dr. Hoang's herbal cure in

January of 2002. He was hoping for *any* improvement, but imagine his shock and delight when...

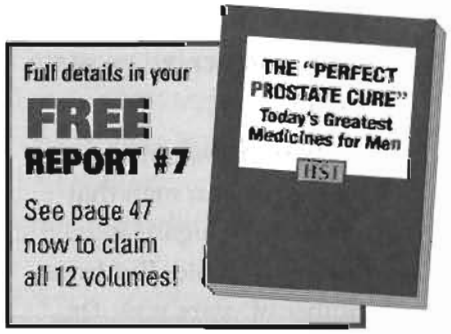
His most recent biopsy showed only *healthy tissue.* Ken was excited enough to organize an informal trial of the herb. As I write this, after 3 months, *the vast majority of cancer sufferers* in this trial have already showed functional improvement. And this is just the tip of the iceberg...

Let's look at the record in Vietnam. Over there, they have been meticulously recording outcomes. Biopsies confirm that quite a few cases of advanced prostate cancer—the "incurable" kind—were *completely cured* by this herbal treatment alone.

Equally fine results for BPH. The International Hospital has been using it for 7 years to treat benign prostate swelling. Their urologists track results very thoroughly, even measuring prostate size. They report astonishing success for 92.6% of patients —more than 9 out of 10.

How it works. Intriguingly, the herb is so valued in Vietnam that it once was reserved for the royal family. Scientists are still puzzling out exactly how it works. (Remember, HSI reports breakthroughs as they happen and this is *very* new.) But recent experiments show that extracts from this herb contain a substance called neopterin, that "tells" abnormal cells to die.

Where to get it. Not easy! It's so new to the West that we've found only *one* reliable source. You'll find the details in your FREE report #7, ***THE "PERFECT PROSTATE CURE": Today's Greatest Medicines for Men.***



URGENT ALERT!

How *not* to get killed by the PSA TEST MESS!

This just in. **Dr. Thomas Stamey,** the scientist who originally discovered the PSA test has finally tossed in the towel. After tracking results of using it for over 20 years, he flatly declares that the test is "no longer finding significant cancers." This simply confirms our warning to HSI Members back in July of 2002—as many as half of all men getting biopsies because of high PSA readings don't have cancer at all. But they are suffering needless pain, bleeding and infections from the biopsies. So what's a man to do?

Skip the test? That's what the prestigious British Medical Journal seemed to imply when it recently declared, "the one certainty about PSA testing is that it causes harm."

But what a minute! What about men with high PSA readings who really do have cancer? Should they simply *ignore* the danger signs? Clearly, the PSA test correctly predicts cancer sometimes. Isn't there any way to improve its accuracy? *Yes, in fact, there is.*

What to do. HSI recently advised Members to follow up abnormally high PSA readings with a little-known screening procedure called AMAS. This simple blood test detects a substance called *antimalignin antibody.* As explained in your FREE reports, it has an accuracy rate of 95%. Most importantly, AMAS levels tend to rise early in the disease, which means that cancer may be caught even when an initial biopsy might miss it.

How to get it. If your doctor hasn't yet heard about the AMAS test, we'll provide full details in your FREE report, ***THE "PERFECT PROSTATE CURE":*** *Today's Greatest Medicines for Men.* It's FREE with your risk-free HSI Membership, so RSVP today.

Rare New Vitamin Discovery REVERSES DIABETES DAMAGE

Cutting-Edge AWARD

- **Retinas return to *normal*...**
- **Kidney disease risk *halved*...**
- **Nerve damage *down 60%!***

The research began decades ago in Japan, where scientists discovered a rare new member of the B-complex family. They found it shockingly effective against painful nerve conditions--even those caused by alcoholic damage.

Fast-forward to 21st century Germany, where scientists were seeking something—anything!--to halt the deadly effects of diabetes. They reasoned this same vitamin might help prevent *diabetic* nerve damage. But imagine their surprise when they found *all three* causes of diabetes damage had been "normalized!" Even the delicate *retinas* of lab subjects treated with this vitamin were suddenly normal again.

How it works. This rare vitamin has an uncanny ability to lower blood glucose and keep it from damaging cells. Even a small decrease in blood glucose has been shown to have enormous benefits—cutting kidney disease risk by 50% and reducing nerve disease 60%.

How to get it. This is not ordinary vitamin B, and it's very hard to find. The one supplier we've located imports it from Denmark. FREE! Volume #10:

Yes, believe it or not, *thousands* of patients who tried this extract from snowdrops did *7 times better* than those who used a placebo! That's just one of the amazing new "smart pills" you'll learn about in this report, including...

- **Senile symptoms turned back too.** New periwinkle extract stuns researchers. Boosts your brain's supply of the "fuel molecule" ATP.
- **And everyone's brain can benefit** from a key brain nutrient that blows away Ginkgo Biloba, Ginseng and other pretenders.

Unlike herbs that simply improve brain circulation, these discoveries re-activate *the nerve cells* that control everything from mood to intellect. And there's only one place you're likely to find them. Here!

Secret Germ Antidote
KNOCKS OUT FLU IN 8 HOURS

FEDS PREDICT KILLER FLU. We do not exaggerate. When the U.S. Center for Disease Control shouts "THIS IS A VERY HIGH THREAT," it's time to stop worrying and do something!

Some very careful authorities predicted the deadliest outbreak since the 1918 flu pandemic that killed 40 million. This new super-flu virus has already spread from poultry to humans, and *72% of the people who get it are dying.* Even if the flu shot program *weren't* a shambles, it's too late now to create a vaccine.

But HSI has been preparing against this for years. We've uncovered dozens of powerful natural germ-killers and immune-boosters, and this report details all of the best. Plus a shocking new breakthrough that could dwarf them all—developed in secret by the Russian military to treat *anthrax!* In documented case histories, this special microbe "antidote" has knocked out the flu in just 8 hours. And that was before Bulgarian germ biologists took over the project and made it 10 to 30 times more powerful.

Stockpiles have just been made available in the U.S. So why haven't *you* heard about it? A major TV network recently filmed a prime-time special

about it—and abruptly canceled it. WHY? Pressure from drug advertisers? Draw your own conclusions, but HSI will not be silenced. Just bear in mind that stockpiles are limited, so don't wait one more moment...

TODAY'S VITAL HEALTH SECRETS

- **Age-Reversal Riddle Solved.** Ever wonder why Winston Churchill, Mao Zedong and other ageless legends stayed so energetic for so long? It wasn't genetic—it was *a secret clinic,* where they received a real-life "fountain of youth" formula. No rumor, it was *documented on 60 MINUTES* and proven in a massive series of clinical trials. Now HSI Panelist Dr. Ann Louise Gittleman has improved it enormously, so that it lasts 15 times longer and works 6 times stronger. An easy-to-take pill. Find out how to use it, where to get it.
- **New Key to Ending Macular Degeneration.** Researchers have found that a special type of microscopic algae that grows off the coast of Hawaii makes mega-vitamins look like slackers. *It's 80 times more effective than the leading antioxidant!*
- **The *Natural* Psoriasis Miracle.** Up until now, sufferers of problem skin have had little to choose from for true, lasting relief. Now, a new remedy made from Oregon grape extract helps soothe the itchy, dry skin that can leave many sufferers frustrated and embarassed.
- **Rye Revolution Ends Asthma & Hay Fever.** Patients in Australia are throwing out their inhalers! Exciting new rye grass derivative short-circuits allergies by *restoring* your immune system. Doctors report even *flu and cold* symptoms can disappear in hours...hay fever often recedes within *minutes.* Safe for children.
- **Reverse Periodontal Disease with MOUTHWASH?** You never know where the next spectacular healing breakthrough will happen! It was the "ordinary" father of a son with gum disease who came up with this shockingly powerful treatment. He was hoping it might help his son avoid gum surgery...*but whoa!* Not only did the gums become pink and healthy in just a few months. Bone loss was even reversed! Feedback from HSI Members who try it has been wildly enthusiastic. What have *you* got to lose?

Get HSI working on your health agenda and...

- **Be *first* to the breakthroughs!** HSI consistently gets the scoop, because our global network is literally everywhere. You could subscribe to 15 magazines and still not learn as much.
- **Learn what others *can't* tell you!** Doctors are highly restricted in what can they say about their own natural medicines. But HSI sells no medicines, so we have freedom of speech—and we use it.
- **Get *impartial* advice!** HSI plays no favorites. Many times, we have refused offers of compensation for reporting on new medicines. One more reason why scientists trust us to break the stories of their discoveries.
- **Know *all* your healing options!** Each doctor favors his or her own special treatments. HSI shows you the best of them all. *When your life's at stake, don't you deserve to know everything?*
